

We have been making and selling our homemade chocolates since 1978, still family-owned and operated. We are located at the foot of “Bangor Mountain,” between the Poconos and the Lehigh Valley in northern Pennsylvania.

Only the very best ingredients go into our chocolates, each handled with loving care. Our family of dedicated employees take personal pride in creating a real “homemade product.”

Our facility, built in 1906, retains its original candy store charm with stained glass windows, marble counters, glazed tile walls, tin ceiling and hand-painted murals.

Please come visit us! We promise a quaint and delicious experience with old fashioned personal attention.

Yours in all things
rich and sweet,

Steve and Christal Bussenger
